IN THE ABSTRACT

B1
A gaming device and method having a primary display and a plurality of symbols on the primary display which leads to a first bonus. The first bonus is a serpentine path over which a character must traverse in order to achieve a second bonus in which the character moves along in a vehicle on a road "in a movie simulation". The character stops at at least one of a plurality of mercantile establishments. A second round may be accessed from the primary game without the intervening bonus game.
